

3DFURLER ADAPTOR

For Alado A0 – A4 Foils

- Use 2 of the TPU Halves and tighten the drum equally as they slightly compress. The drum edges may have a slight 1-2 mm separation due to the compression of the adaptor.

Note:

This material may be subject to yellow discoloration due to UV exposure. Add a little UV Protectant such as 303 Rubber Seal Protectant. Just ensure it does not contain any acetones.
